### Deferred payment plans

Start with 5 months of \$0 monthly payments, which later increase to standard monthly payments. Deferred payments let the equipment produce income before the standard monthly payments begin.

### Structured payment option

Start with 9 months months of payments at 1% of the financed amount which later increase to standard monthly payments. Lower payments for the first 9 months let the equipment produce income before the standard monthly payments begin.

### Fair market value lease (FMV)

A fair market value lease may help you overcome cash flow limitations. With payments up to 30 percent lower than like term loan financing, an FMV can allow you to acquire the advanced technology you need to compete.
